General Notes:  
1. The displayed claims are projected on the enlarged topographical map "Howardsville" using Latitude & Longitude taken with a hand held GPS receiver at found original corner monuments or other positively identified physical features as called for and described in the field noted for said claims.  
2. The estimated accuracy of the displayed claim boundaries in relation to the topographical map is  $\pm 50'$ . This error ellipse is partially due to problems inherent with the orthorectification of ".tiff" images together with unadjusted differential GPS data.  
3. This map does not imply that a bona - fide field survey was done to set or determine boundary location of the displayed claims.
